## SKILLS

---

Python | Django | Celery | Next.js | React.js | Vue.js | JavaScript | CSS | AWS | ElasticSearch | ORM

## WORK EXPERIENCE

---

**Senior Software Engineer**  
**Medikabazaar**

*March 2022 – Present*  
Mumbai, MH

### – Medikabazaar Marketplace

- Developed in-house search feature in **Django** using Trigram Similarity, replacing ElasticSearch, significantly reducing infrastructure costs while **maintaining search efficiency**.
- Strengthened security measures by revamping authentication system overnight, transitioning from client-side to server-side with HTTP-Only cookies, mitigating bot attacks and **enhancing overall system security**.
- Successfully converted Next.js Progressive Web App (PWA) to native Android iOS apps using Capacitor.js, addressing the organization's need for quick and robust mobile solutions despite limited native app development resources.
- Continuously working on enhancing and optimizing the website by **optimizing the backend queries** and **enhancing the frontend scores** hence, enhancing the overall score of the website. **Successfully, reduced the response time which is now in milliseconds and improved the website score from 15-20 to 45-55.**

### – APIIdrug.com

- Spearheaded the development of APIIdrug.com, a B2B marketplace for API raw materials, taking full ownership of the project from scratch to deployment.
- Collaborated closely with Product Managers and designers to create a robust architectural design and seamless UI, ensuring a user-friendly experience for buyers and sellers.
- Implemented key features such as e-bidding and seller management portal, leveraging AWS services to support global transactions and streamline operations.

**Software Development Engineer - I**  
**CodeNicely**

*January 2021 – February 2022*  
Raipur, CG

- Development of Krishify Business App's entire frontend, contributing to its remarkable growth to **1 crore progressive farmers and 140K daily users**.
- Played a pivotal role as a FullStack developer in building the **Business Card Maker** and **Business Forum** for Vahak, our highly funded client boasting over 10 lakh daily users and a robust network of 6 lakh verified transporters.
- Successfully managed and contributed to the development of four or more concurrent real-world projects, demonstrating exceptional multitasking abilities and a commitment to delivering high-quality software solutions.

**Chat Sales Associate**  
**TTEC**

*May 2019 – May 2020*  
Ahmedabad, GJ

- Was responsible with the sales team of a product which has 120M User base, a US based brand named **Verizon**.
- Won the title of **best Sales Associate** (new joiners) for the current month in 2019.

## EDUCATION

---

**Institute of Technical Education and Research, SOA University**  
Computer Science and Engineering

*April 2019*  
Bhubaneswar, OD
